EDUCATION

Jawaharlal Institute of Technology — Borawan, Madhya Pradesh
Bachelor of Technology , Computer Science and Engineering — *2022 – 2026*

Gayatri Shiska Niketan — Khargone, Madhya Pradesh
Secondary Education — *2020 – 2022*

EXPERIENCE

Frontend Developer Intern — Nov 2023 – Dec 2023
Runon Private Limited — *Remote*

- Developed frontend components from scratch based on Figma designs, ensuring pixel-perfect accuracy and responsiveness across various devices.
- Integrated APIs seamlessly into the frontend to fetch and manipulate data, enhancing user interaction and overall functionality.
- Managed all frontend tasks independently, including design implementation, feature development, and bug fixing, ensuring timely delivery and project success.

GirlScript Summer of Code — Mar 2023 – May 2023
GSSOC — *Remote*

- Enhanced project designs, functionality, and performance through dedicated contributions.
- Identified and resolved bugs, improving overall project reliability and user experience.
- Implemented optimizations to enhance project performance, ensuring smooth functionality.

PROJECTS

Chat Application | *React, NodeJS, MongoDB* — Sep 2023 – Oct 2023

- Developed a dynamic chatting website using the MERN (MongoDB, Express.js, React.js, Node.js) stack, through which you can chat with each other
- Implemented user authentication and real-time chatting experience

Apple Doors | *React, NodeJS, MongoDB* — June 2023 – August 2023

- Developed a dynamic website using the MERN (MongoDB, Express.js, React.js, Node.js) stack, facilitating the buying and selling of doors.
- Implemented a unique customization feature allowing users to personalize their doors, enabling them to visualize and customize the door from all sides before making a purchase.
- Implemented secure sign-in and sign-up functionality using authentication methods, ensuring user privacy and data security throughout the platform.

Dev finder | *NextJS, MongoDB* — Mar 2024 – March 2024

- DevFinder is a tool designed to easily find and explore GitHub profiles, providing detailed information about developers.
- Built with Next.js, it ensures fast performance and a seamless user experience.

Fitness Website | *React* — Nov 2022 – Dec 2022

- Showcased React.js proficiency with animated, interactive UI
- Integrated extensive animations and hover effects with React components.
- Demonstrated React.js best practices for efficient, visually appealing UI.

TECHNICAL SKILLS

Languages: C/C++ , Python, JavaScript, HTML/CSS, R
Frameworks: Nextjs, React, Node.js, Express, WordPress, Material-UI
Developer Tools: Git, Github, VS Code, Visual Studio
